

We thank all the families for their support during Covid pandemic. We successfully administered the first dose of the vaccinations on February 18th. The second dose was administered in Crofton February 23rd. A second dose will be given on March 17th and for those who were not able to get vaccinated.

Our staff did an amazing job keeping the residents active and happy during our Covid confinement.

Chaplain's Corner

"And in the end, the love you take is equal to the love you make..."

- The Beatles, from "The End"
